Education

Vishwakrama Institute of Information Technology — *June 2023 – June 2025*
Bachelor of Engineering — CGPA: 8.42

SKILLS

- **Frontend:** React.js, Next.js , GSAP, Tailwind CSS.
- **Backend:** Node.js, Express.js.
- **Programing Language :** Java , Python , JavaScript .
- **Databases:** MySQL, MongoDB , Firebase , DBMS Fundamentals .
- **Tools:** Git, GitHub, Postman , Canva , Figma , Jira
- **AI/ML/Libraries :** Basic Machine Learning , Pandas, NumPy, Matplotlib.

WORK EXPERIENCE & PROJECTS

Web Developer Intern at Tellis

- Developed and deployed full-stack features using Next.js, TypeScript, Express, and MongoDB, improving application performance and scalability.
- Integrated Firebase services (authentication, cloud storage, and real-time database) to enhance user experience and security.
- Built cross-platform mobile features in React Native, ensuring seamless UI and functionality across Android and iOS devices.

Project - Zero Hunger

- Identifies nearby food banks, community kitchens, and donation centers through Google Maps integration.
- Includes an AI-powered chatbot that guides users on nutrition, food availability, and donation opportunities using React.js, ML, and Tailwind CSS

Project - Sahay

- Sahay – Digital Mental Health & Psychological Support System (SIH 2025): Enables real-time document collaboration using Next.js, Gemini AI, and Firebase for scalable data storage.
- Features real-time analytics dashboards that help institutions make data-driven mental health interventions, built with React.js, Node.js, Express.js, MongoDB, Python, and AI/ML.

Mini Projects and Contributions

- RouteCraft
- EduQuest
- NurtureNest

Positions of Responsibility

- *Joint*-Technical Head at Code-Chef

ACHIEVEMENTS

- **Pulzion Hackathon Winner** (web dev hackathon conducted in pict , We were Runners up in web domain.)
- **Techkathon Winner (National Level Hackathon)** National level hackathon condudcted in AISSMS College. We won 1st prize in individual problem ststement among 200+ Teams.
